# Exposing a Crisis Which Can Not Remain Unnoticed Without Lethal Consequences for All of Humanity.

Disbelief of Remote Mind Control Technologies Is Enabling Lethal Crimes Against Humanity

Criminal targeting of individuals, and even whole communities, with microwave weapons, and remote mind control technologies, is a global crisis that has been having ill effects on most of humanity for decades now! What's happening is so outrageously inhumane that the natural response is to slip into shocked denial, overwhelm, or complete disbelief, but there is not time for this type of response. This situation needs our immediate awareness and attention.

I beg you to take this seriously, because ongoing criminal use of such technologies are a devastating reality for growing numbers of individuals, families and even whole communities. If you seriously doubt that advanced microwave technologies are in the hands of criminals who aim to harm and/or control humanity, please just read this article, and the links on it, and then listen to only the heart of your instincts. . .for your own sake as well as that of your loved ones.

My research has shown me that remote mind control, with the use of radio waves, was used by Hitler and is now being accomplished through the computerized use of combined technologies like satellites, HAARP, cell towers, glen towers and other sorts of transmitters that can emit microwaves - radio waves at the same frequency as the human brain. These technologies had been created as secret military weapons, which is why most people do not know of their existence. Since at least the 1960s, they have been unleashed on the unsuspecting world population.

Quote by (the late) Jim Kieth: "Brain-computer radio communication has long been considered impossible by the majority of people and has consequently been relegated to science-fiction, but the fact is that the technology had been developed into reality by at least the 1960s, during which time the initial experiments were being performed on unwitting subjects." Mind control on individuals is done in a similar way that remote laser surgery is done - through directing condensed beams of radio waves into specific parts of a person's brain. Depending upon which part of the brain is invaded and which frequency is used, this can either put us into a hypnotic state for the delivery of whatever messages the intruder wants to give us, or it can instigate a wide range of emotional responses. . .from mental numbness and depression to anxiety and extreme irritability. This can also be done to whole communities in a more general brainwashing, which can effectively cause mental fatigue in, as well as delivering subliminal messages to, masses of people.

It appears that there has already been a mass brainwashing against the belief that remote mind control is even possible, because most people seem unable to even think of the possibility of this devastating reality. The unusual part is that people seem to not even want to TRY to investigate it, although many books have been written about it. This sad scenario, on its own, can be proof of mass mind control, because there is scientific proof of such technologies and just a little bit of research and common sense can KNOW that they were created to be used. This is real folks.

The freedom we boast of in the USA has already been secretly torn away. Lets take it back.

This article is interesting "The Russian Woodpecker: experiments in global mind control" by Philip Coppens. Within it he writes, "In April 1953, CIA Allen Dulles gave a lecture at Princeton University, detailing Soviet developments in the field of mind control. He stated they were out to control the mind of free men, both individually and collectively. . . Dulles proclaimed that the Cold War was moving into a new era of psychological warfare, which Dulles characterized as the battle for men's minds. "We might call it in its new form brain warfare. . .In the 1970s, some of this "secret war for our mind" was exposed. . . " More on this link: <a href="http://www.philipcoppens.com/woodpecker.html">http://www.philipcoppens.com/woodpecker.html</a>

In 1976 Time Magazine said, "Last month the U.S. confirmed that for some 15 years the Soviet Union has been beaming microwaves at the hulking nine-story U.S. Embassy..." More recently, researchers and scientists are finding out that this microwave energy is used for mind control and that this may have been what was happening to the embassy from around 1961 to 1976. This gives us an idea of how long these weapons have been in use. It would be foolish to assume that these technologies have not remained in use and have not been improved upon. The fact is that they have been unleashed on an unaware population and countless numbers of people are suffering the effects without even knowing what is happening to them. For the sake of preserving the integrity of humanity please let your imagination take a glimpse into the forbidden atrocities that perverted criminals can perform with these secret remote technologies, which also encompass the capability of stimulating any nerve or organ in our bodies. . .including the ability to project recorded voices and/or images into or around unaware victims. . .or to instantly render a person unconscious. (Keep in mind that these technologies can see through walls and into a person's body in similar ways to that of cat scans.) Through satellite technologies, which appear to be linked to the mind control technologies, a perpetrator can be sitting at his or her computer in Russia while zooming in on a victims in the USA. Can you imagine what kinds of abuses will continue to increase if the general public remains unaware of being held under satellite surveillance by criminals who use psychotronic weapons - mind control technologies and laser weapons on unsuspecting people?

The criminal goal is to control all of humanity through controlling our minds and preventing free will and personal growth. (I have witnessed how effective this is) I believe that many government, military, media and law enforcement personnel are unaware victims of remote mind control and are, at this time, being used to accomplish a silent takeover of the USA and ultimately all of humanity. Though PARTS of our own governments are obviously involved, it appears to have deep roots in secret societies, the UN, the "elite"...etc.

No matter who's involved, this is a dark occult, whose heartless tentacles are already stretching around the globe to secretly wrap themselves around the freedom and liberty that we THINK we still have.

It appears that the general numbness, the growing lack of care and growing levels of discord in our world is mostly due to the effects of wide spread remote mind control. Many of the criminals who hold the controls of these technologies appear to be sadistically aiming to cause chaos, pain and suffering. The rise in crimes are being blamed on economic difficulties. But the truth is that, by nature, human beings tend to pull together during tough times - letting our Hearts help each other through.

### What is now happening is not natural, not normal, not meant to be and is a criminal assault on an unsuspecting and defenseless populous.

It is difficult, to say the least, to face these facts and realize that such sinister forces are ALREADY taking control of our minds, our lives, our countries. . .our world. However, we must not only face this, but also rise up and do all that we can to stop it as quickly as possible.

The ultimate remedy is to fully prosecute the criminals who are leading such atrocities and/or completely disable their technologies. But until these crimes are believed and stopped, by either a united public or agencies that are supposed to be protecting us...the only protection we have is to help bring these crimes into public awareness and quickly develop technologies that can protect us from microwave weapons.

There are technologies, which can detect and block the radio waves that humanity is being attacked with, but they are ironically becoming illegal or altered in ways that do not detect the frequencies that are being used for mind control. Sometimes it is difficult to hold onto the hope that this will be stopped, because its secrecy has enabled it to grow and remain hidden for too long. But we must.

#### A Few Symptoms of Remote Mind Control

Many victims will only experience a faint high pitched ringing in their ears, which they may not even notice. Others may experience symptoms of mental illness (even hearing voices) and/or any number of the following symptoms and some that are not listed here. The symptoms may come on suddenly and then disappear as quickly. They may slowly increase, come and go, or continue almost constantly. There are many variables.

High pitched ringing in ears (Can be very faint) - Light headedness or dizziness mental fatigue - Forgetfulness - Sinus Problems - Faint sharp pains shooting into head - Periods of numbness in face or limbs - Burning sensation in mouth - Unusual head aches - Interrupted thoughts or speech (including forced speech) - Diminished or increased hearing or eye sight - Unusual decrease or increase in memory - Unusual depression or anxiety - Unusual thoughts - Unusual swings in emotions - Slow or sudden altered belief systems - Slow or sudden change in personal preferences - Slow or sudden change in personality - Slow or sudden change in values or morals - Aneurysms - Migraine Head Aches...etc.

Some people seem less susceptible to being completely controlled. (I'm glad to be one of these.) <u>People who are taking mood altering drugs, like anti-depressants, are VERY susceptible to being completely controlled. In 2008 there were news reports of mood altering drugs being found in around TWO DOZEN major public water supplies in the USA. I believe that this is not a coincidence, no matter what excuse is made. This is HUGE people. This is not just a few criminals targeting a few people! ALL OF HUMANITY IS IN CRITICAL DANGER AT THIS POINT IN TIME.</u>

Our own hearts and natural instincts can override SOME of the remote manipulations. BUT if we are not AWARE of what is happening we can easily confuse them with our own thoughts, feelings and instincts, and this can be devastating. . .to say the least. Through awareness and a strong will that we can avoid manipulations that are alien to our own nature. But when issues or feelings, that already have roots inside us, are triggered it is more difficult to resist.

It is critical that we quickly unite into an awareness that can form a peaceful stand to end these crimes, in order to protect our freedom and the free will that enables our inner growth.

#### Never, in the history of humanity has there been a more devastating holocaust or a more crucial time for humanity to rise into a peaceful fight for our freedom and well-being.

Perhaps the saddest part of this atrocity surrounds those who have figured out the full scope of what is happening. . .and have been heavily targeted, in order to discredit them and prevent their testimonies from reaching or being believed by the public. These targeted individuals have been put on a 'hit list' in a program that aims to literally destroy them in ways that are not obvious to the general public. Many are victims of remote weapon attacks and Hitler-style harassment programs (gang stalking groups). For decades now, they have been crying out for help that has not been there for them, due to our own lack of awareness. Many have died. Many have been falsely labeled with "paranoid schizophrenia" and sometimes even institutionalized. Many have been framed for crimes they did not commit. Many have been driven to commit suicide. Many have been murdered with microwaves that produce Lupus, Leukemia and other forms of cancer. Many are now fighting for OUR lives in a world that does not even acknowledge the crimes that are being committed against them.

Note to medical, media and law enforcement personnel: PLEASE investigate this for your own sakes. . . and do not blindly judge or label a Targeted Individual. Please care to at least have them scanned for microchips, tested for cell structure and brain damage, overdoses of microwave energy...etc., instead of making them have to prove their sanity (which is an impossible task with anyone who does not realize what is REALLY happening) on top of everything else that they are being hit with.

PLEASE BECOME AWARE, HELP SPREAD THE WORD AND LISTEN TO ONLY YOUR OWN HEARTS. . . because not doing so is hurting us too much.

What kind of world can my weary eyes see —
What kind of world need grow to be?
A world where Love fills the void of hate
And freedom is delivered by hands of fate.
A world where everyone picks up paces
To lift broken people from wounded places.
A world where all is in a state of repair
And none are left in deep despair.

No matter how difficult life is today - no matter how much is torn away

The sun will rise on all of humanity as we embrace our hearts and set Love free.

This paper gre w from the news paper that formed <a href="www.targeted11.blogspot.com">www.targeted11.blogspot.com</a>. My websites have been being tampered with so please do your own research if they become unviewable or filled with questionable content. Authors Jim Keith, Jerry E. Smith, Tim Rifat, Nicholas Kirkland Anna Keeler and others offer many references to documented proof of remote mind control technologies and their use on both military personnel and civilians since at least the 1960s. I believe that Jim Kieth and Jerry E. Smith were inconspicuously murdered when they began figuring out that remote mind control technologies have been being used on an unsuspecting populous for DECADES now. Lets not let their deaths be in vein. You can also do web searches and see what you find. But remember that many accurate sites have been taken down. And there are sites set up to intentionally misinform and confuse the public. So, please let the heart of your own instincts do the searching. And please help spread the word as quickly as possible.

I am a targeted individual who is being slowly murdered with microwave weapons - I am being held under surveillance, gang stalked, threatened and attacked with remote technologies for witnessing, for knowing, for writing and perhaps even for being a decent independent writer/human being who focused on personal/spiritual growth. I had perfect credit and owned my own home and businesses prior to these parts of my life being destroyed. My birth name was Sharon Yvette LaBree. My Married name was Sharon Buck. My pen name was Namatari. I was born and raised in New Boston, NH - USA and I believe that my whole family and residents of the Hillsborough County Nursing Home had been being used for remote technological experimentation since the 1970s. Please help this statement be recorded in the event of my death. My legal name is now Sharon R. Poet, PO Box 383, Mont Vernon, NH 03057 USA.
